

**Razia Shafique-Sabir** is a Wildlife Biologist with a strong focus on conservation and habitat management. She earned her Bachelor of Science in Wildlife Biology, with a minor in Math-Statistics, from the University of Montana. Currently, she serves as the Deputy Project Leader at the Sonny Bono Salton Sea National Wildlife Refuge Complex, where she has led wildlife surveys, coordinated habitat restoration efforts, participated in significant research projects, and organized numerous community outreach events to promote conservation in the Salton Sea and along the Pacific Flyway.

Before joining the U.S. Fish and Wildlife Service, Razia worked as a Field Biologist in various National Park Service locations, contributing to projects such as bat population surveys in Glen Canyon National Recreation Area and monitoring and protecting critically endangered species, like the Great Lakes piping plovers in Sleeping Bear Dunes National Lakeshore and Kemp's ridley sea turtles in Padre Island National Seashore.
