

**Jeremy Brooks, PMP**

Salton Sea Program Manager  
Bureau of Reclamation

Jeremy is a certified project management professional with over two decades of experience in Colorado River and natural resource management. Jeremy works within the Lower Colorado Region's Office of the Regional Director and serves as the Salton Sea Program Manager, overseeing agency-wide efforts related to the Salton Sea. During his time at Reclamation, Jeremy spent nearly a decade as a Project Manager with the Lower Colorado River Multi-Species Conservation Program. This role included leading ecological restoration and Endangered Species Act compliance efforts related to the operation of the Colorado River from the full pool elevation of Lake Mead to the Southern International Boundary with Mexico.

Jeremy has recently supported numerous agency initiatives, including drafting and implementing the December 2022 Salton Sea Commitments Agreement, development of the Supplemental Environmental Impact Statement for Near-term Colorado River Operations, efforts associated with the Lower Colorado River Multi-Species Conservation Program, and the negotiation of System Conservation Agreements which aim to protect critical elevations within Lake Mead and Lake Powell.
